

EXPLORE UNITED ARAB EMIRATES

This territory is known for its extremely luxurious lifestyle and for its glittering skyscrapers and huge shopping malls, but it also has typical attractions, such as a small corner of paradise with a moon-shaped sandbank where it is possible to fish, engage in water sports and relax in total contact with nature or, if you love mystery you can enter an abandoned village with houses half-buried in the desert or admire the spectacle of the red desert, have fun taking part in a car tour among the highest dunes in the world and conclude with an evening and typical dances in an oasis. Finally, you will be able to visit archaeological sites that date back to the 3rd century B.C.
